AutoCAD [March-2022]

Acquisition of Autodesk Autodesk has its roots in the 1970s, when Gary Chastain and Donald Evans designed the first CAD program, for Evans' department at Pratt & Whitney Canada, as a $35,000 prototype. Development and marketing of the first version of AutoCAD 2022 Crack, in 1982, were driven by Leon Bloomfield, formerly a vice president at Evans & Sutherland, then an Autodesk marketing employee. The AutoCAD name is a play on the phrase "automatic drafting", and on the term "AutoCADner", which is a person who manipulates AutoCAD drawings. After the acquisition, Autodesk's revenue more than doubled in 2011, to $1.5 billion.
